

## **CONSTRUCTION MATERIALS**

- Steel, steel constructions
- Glass
- Wood
- Cement, lime, gypsum
- Natural stone and aggregate
- Insulation materials
- Pre-fabricated elements
- Brick and other wall materials
- Roof tiles, roofing
- Other materials

## **CHEMICAL CONSTRUCTION MATERIALS**

- Paints, varnishes, glues, enamels, stains
- Glues and seals
- Plastics
- Rubber
- Other chemical products

## **MACHINES AND TOOLS**

- Cranes and lifting gear
- Machines and equipment for manufacturing construction materials
- Tools and minor construction equipment
- Other construction machines

## **FINISHING MATERIALS FOR CONSTRUCTION AND INTERIOR DECORATION**

- Windows and doors
- Sanitary equipment
- Ventilation and air-conditioning
- Lightning protection and earthing
- Water and sewage installations and systems
- Finishing materials
- Lifts, stairs
- Accessories

- Interior decoration
- Lighting

## **CONTRACTORS**

- Comprehensive
- Installations
- General construction

## **SERVICES**

- Designing
- Design development and sales
- Contracting
- Geodesy and cartography
- Other services

## **ENERGY**

- Renewable sources of energy (wind energy, solar energy, geothermal energy, hydro energy, biomass energy)
- Technology for extracting energy and heat from renewable sources (biofuels, straw and wood boiler-rooms, geo-thermal sources of heat)
- Technology based on energy from renewable sources
- Storage of energy and energy saving
- The possibilities for financing renewable energy
- Sun collectors
- Fire-wood stoves
- Heat-radiators
- Bio-mass boilers
- Bio-fuel vehiclesDdevices and technological lines for peletes production

The matchmaking event is co-financed by European Commission in frames of Competitiveness and Innovation Programme and by State Budget
