POMOLOGY

CCAFRA - Institute for Seed and Seedlings

- 18 years experience in **variety testing of agricultural crops, VCU and DUS examinations**
- Equipment for performing field trials for variety testing and a network of trial sites in continental Croatia suitable for wheat, barley, maize, sunflower, soya bean, sugar beet, fodder crops, oilseed rape, ...
- Laboratories for seed quality control and grain quality analysis as well as for DUS characteristics
- Expertise in **conservation of genetic resources of agricultural and fruit plant species in the form of seeds and field collections**
- We are also proficient in the field of plant genetic resource documentation as well as in morphological characterization of small cereals and some fruit species (apple, pear, plum, ...)

WE ARE INTERESTED IN PARTNERSHIP ADDRESSING:

- Genetic resources and biodiversity management
- Plant variety testing

INVOLVEMENT IN PROJECTS:

- Database of storage proteins of Croatian wheat germplasm; 2013-2014
- Creating wheat for the future-guest for new genes in the old gene pool; 2014-2017
- Adaptability assessment of maize and soybean cultivars of Croatia for breeding for drought tolerance; 2017-2019
- National Programme for Conservation and Sustainable Use of Plant Genetic Resources for Food and Agriculture in the Republic of Croatia; 2017-2020
