

**Turning ideas into projects  
and projects into success**

**Dimitrios Papadakis**  
Co-Founder and Director  
Evenflow SPRL  
[www.evenflowconsulting.eu](http://www.evenflowconsulting.eu)

# Evenflow: Turning ideas into projects, and projects into success

- ▶ **Evenflow is a young start-up SME striving to bring cutting-edge technology applications to a wider audience**
  - Founded in January 2015 by Dimitrios Papadakis and Lefteris Mamais
  - Ad hoc support by an **extensible and dynamic** group of experts
- ▶ **Evenflow creates value for clients along four service lines:**
  - **Business Development Support**
  - **Strategy and Management Consulting**
  - **Project Management and Coordination**
  - **Communication and Exploitation**

# Expertise and cross-cutting competencies

- ▶ **Experts in EO and EGNSS downstream applications**
  - Market trends, cost-benefit analyses, future evolution
  - Multiple thematic areas: **Emergency Management, Security, Agriculture, Transport, Civil Protection etc.**
- ▶ **Communication and exploitation specialists**
  - Extensive portfolio of **communication tools, techniques and methods**
  - Formulation of **business plans and exploitation strategies**
- ▶ **Proposal and project management**
  - **Full cycle proposal management**, incl. consortium build-up
  - **Management and coordination** of projects in execution phase
  - **Specialised value-adding toolkit** for improving visibility and efficiency
- ▶ **Extensive network in the EO and EGNSS communities (academia, industry, institutions) and adjacent sectors**

# EU-funded projects and proposals

- ▶ Led or contributed significantly to **two winning H2020 proposals** (starting 2016)

**APOLLO:** A downstream commercial advisory platform for small farms based on free and open EO data, including Copernicus

**GEO-CRADLE\*:** GEO capacity building in Balkans, North Africa and Middle East

- ▶ Participated in and/or supported the coordination of multiple FP7 projects and proposals\*\*
- ▶ Experience in EU framework contracts and ESA tenders related to E-GNSS and Copernicus\*

\* Participation as individual team members

\*\* Note: Including under previous organisational arrangements

# Evenflow's areas of interest in the Horizon 2020 calls for 2016-2017

- ▶ **All EO and GNSS calls**, with special interests and capacities in:
  - EO-1-2016/17: Downstream applications
  - EO-3-2016: Evolution of Copernicus Services
  - GALILEO-4-2017: EGNSS awareness raising and capacity building
- ▶ **COMPET calls:**
  - COMPET-6-2017: Space Portal
  - COMPET-7-2017: Technology transfer and business generators
- ▶ **Cross-cutting calls with space elements**

Looking forward to working with you in conceiving, building and implementing high-impact projects
