

HORIZON 2020

HEALTH PARTNERING DAY 2017

HEALTH, DEMOGRAPHIC CHANGE & WELLBEING

7 DECEMBER 2017, BRUSSELS

Session 1: Better Health and care

TASK4HUMANS: Mental health by adapting work to the workers (Eurecat)

Julia Palma
EURECAT, Spain

Project Idea

TASK4HUMANS

Adapting work to the worker for promoting mental health

- Main objective of TASK4HUMANS:
 - to demonstrate the health, social and productive effectiveness and feasibility of implementing interventions based on adapting the task to perform to fit in with the skills, and predicted and current physical and mental state of the workers
- Operational objectives:
 - To create awareness on the relevance of mental health conditions and the related protection and risk factors within the working environments
 - To gather relevant information from the worker and the institution both from passive and active sources (using non-intrusive sensors and immediate feedback –smileys style-)
 - To develop a platform based on machine learning for appointing and planning the most adequate task to the workers
 - To evaluate the effectiveness of the intervention in terms of gained quality of life, QALY and productivity for the companies

eurecat

About Eurecat

Organization and skills

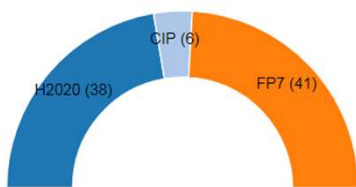

Multidisciplinary private non-profit research center

Eurecat is the main Technology Centre in Catalonia

Figures

- 600 professionals
- 60 M€ revenues
- +1,000 customers
- 8 spin-off companies
- 73 patents
- 29 EU projects as coordinator
- +100 EU projects

● H2020 (38) ● CIP (6) ● FP7 (41)

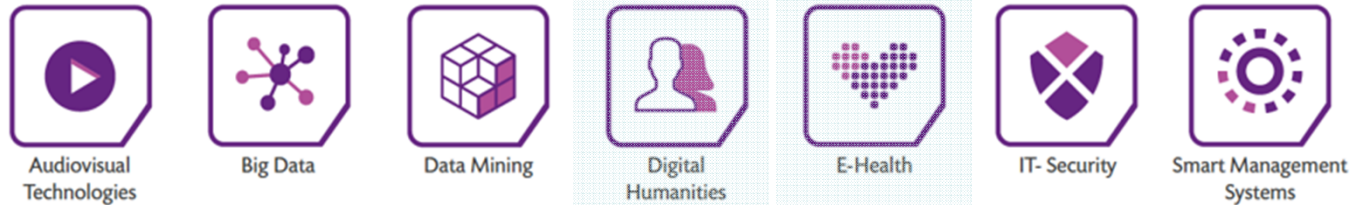

INDUSTRIAL TECHNOLOGY AREA

BIOTECHNOLOGY AREA

DIGITAL TECHNOLOGY AREA

Some related EU projects

Ongoing

NESTORE (H2020-SC1-PM)

Coaching for elderly to retain activities
http://cordis.europa.eu/project/rcn/211703_en.html

CONNEXARE (H2020-PHC)

Collaborative and self-management platform
http://cordis.europa.eu/project/rcn/206414_en.html

Finalized

WISEL (FP7-ICT)

Wireless insole for footstep monitoring.
http://cordis.europa.eu/project/rcn/100976_en.html

SAAPHO (AAL)

Tablet control
