# WATER Brokerage Event

## introduction

The Brokerage Event in the water sector, “**MURCIA WATER 2014**” within the 2nd Mediterranean Water Forum framework, is an international event which will present the latest technological advances in the field of Water and Energy, and in which many companies and research groups of different countries will maintain bilateral meetings to establish technological cooperation agreements related to the latest innovations in technology and services.

It will be a one-day event and it will be inaugurated with a conference of great relevance in the sector. It will be followed by a brief practical session about the current funding opportunities for companies and projects related to the areas of water and energy.

Afterwards, there will be bilateral meetings between the representatives of the different companies, arranged by the organization, with the aim of connecting the offers and technological demands of each company.

## organization

**MURCIA WATER 2014** is a free event organized by the Regional Development Agency of the Region of Murcia (INFO) and the School of Industrial Organization (EOI), and it will be co-financed by the European Regional Development Fund (ERDF) and the Ministry of Industry, Energy and Tourism. It is organized in the Enterprise Europe Network EEN SEIMED framework.

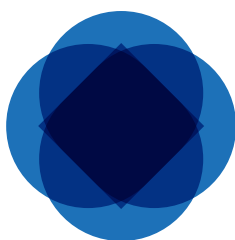

## participants

The participation is open to any entity that offers or demands any innovative and advanced technology or knowhow within the water and energy sector. These entities may be companies which develop and commercialize technology and knowhow, universities, technology centers, research institutes and others.

## next events

### **The 2nd Mediterranean Water Forum:**

Over the following two days the 2nd Mediterranean Water Forum will be held. This is a meeting in which current strengths, weaknesses and opportunities in the matter of Water in the Mediterranean countries will be discussed.

*The Mediterranean water community* has initiated an efficient synergy in view to consolidate the cooperation and exchange of knowhow and experience in the field of water. It is a forum where we can see the results of the on-going efforts in good governance, and other initiatives carried out by the most relevant stakeholders in the joint projects, always aimed at bringing the water sector innovative solutions and sustainable results for a shared, global ecosystem.

The Region of Murcia in Spain (member of the Committee of the Regions – ARLEM) is hosting the 2nd Mediterranean Water Forum (26-27 November 2014).

This second regional event will be articulated around the preparatory process for the 7th World Water Forum to be taking place from 12 to 17 April 2015 in Daegu, South Korea.

### **Exhibition**

At the same time, it will be possible to visit the Water and Energy trade exhibition, where both companies and institutions will present their latest technologies in the different areas. It will also be possible for any company that wishes to participate in the exhibition to request a stand.
