Brussels , 6-7 March 2017

Elcano Royal Institute
Francisco Andrés
fandres@rielcano.org

- Elcano Royal Institute is Spain's leading think tank in the Foreign Policy and International Relations category, being rated 30th worldwide (Global Go To Think Tank Index Report).
- Specialized research on Defence, Terrorism, Radicalization among other security issues (Interdisciplinary approach)
- Experience in participating in EU funded projects and coordination of H2020 proposals with capacity in terms of human resources (Project Office)
- Special expertise in coordinating exploitation of results and transfer to policy making (Impact tools, Responsible Research ...)

- Current participation in research initiatives with synergies to security issues:
 - H2020-FCT-SEC-06-2016: COORDINATORS, Grant Agreement Preparation stage (*Developing a comprehensive approach to violent radicalization in the EU from early understanding to improving protection*)
 - RADICALIZATION AWARENESS NETWORK CENTER OF EXCELLENCE (RAN CoE): Policy analysis for decision makers (Radicalization strategies and policies of Member States)
 - EUROPEAN DEFENCE AGENCY (EDA): Assessment of European defence industrial base
 - STUDY GROUP ON CYBERSECURITY at national level: risk analysis of cybersecurity and policy options in Spanish strategy.
- Access to stakeholders: Security, Justice and Intelligence actors decision-making level, law enforcement corps, and other relevant actors in the field (academia, independent expert...)

Pan European Networks of practitioners and other actors in the field of security

- **Scope:**
 - *a) Network of think-tanks on security*
- **Objectives:**
 - *Propose research agenda and roadmap for stakeholders (industry, LEAs, public administration, NGOs, first-line responders...) for development of the Security Union*
 - *Foresight analysis for decision-makers and intelligence community (priorities for future)*
 - *Policy options, legal aspects and requirements for main stakeholders (capacities)*
- **Expected results**
 - *Better coordination and collaboration amongst Member States and EU institutions*
 - *Synergies with established networks and initiatives*
 - *Better investment and efficiencies in implementation of policies across Europe*
 - *Synergies with other policies (defence) and actors (innovation, technology)*
